Continuation of Substance of Interview including description of the general nature of what was discussed: On 12/2, the examiner proposed amendments to the claims that would place the application in condition for allowance, including rejoinder of the currently withdrawn method claims (with amendment). Applicant's representative requested consulting with the applicant prior to accepting/denying the proposal. On 12/15, the examiner followed up with Applicant's representative, and was instructed by Robert Madsen that Applicant had proposed amendments for consideration. On 12/30, the examiner discussed the proposed amendment with Mr. Voeller. Concern was raised by the examiner regarding the newly method to treating Chagas' disease, however upon further review of the specification, support was found, thus it was deemed acceptable. As presented in the examiner's amendment, the claims are in allowable form. Agreement was reached.
